\* Killo-est, un : duna l'altre 30-40 m. est, o sud-est, a l'altre 50 m. sud-est.

<sup>22</sup> H. B. Hughes, *Handbook of the Birds of the Eastern United States and Canada*, 2nd ed. (New York: McGraw-Hill, 1918), p. 100.

\*\*\* In the standard deviation column, 1 and 2 refer to the 1st and 2nd highest values, respectively.

The Theil's Statistic  $T$  is defined as  $T = \frac{1}{n} \sum_{i=1}^n \frac{(y_i - \hat{y}_i)^2}{\hat{y}_i^2}$ , where  $y_i$  is the observed value,  $\hat{y}_i$  is the predicted value, and  $n$  is the number of observations. The Theil's Statistic  $T$  is a measure of the relative error of the model, and it is calculated as the ratio of the mean squared error to the mean squared value of the dependent variable. The Theil's Statistic  $T$  is a measure of the relative error of the model, and it is calculated as the ratio of the mean squared error to the mean squared value of the dependent variable.

The following table shows the number of people who have been convicted of a crime in the past 10 years and sentenced to prison for the first time, by race and ethnicity, for the years 1990, 1995, 2000, and 2005. The data is presented in thousands of people.
